

Cashing of checks for Policy Change requests

In an effort to streamline processes between Policy Change and New Business, Policy Change has begun cashing premium checks as change requests were received versus waiting for the change to be processed.

Please note that cashing the check immediately does not guarantee approval or acceptance of the policy change request. Once the policy change request has been fully processed, the payment will be applied to the policy.

If the policy change request is not approved, the payment received will be refunded to the policyowner.

If you have any questions please contact your Policy Change team.
